

ET APRÈS ?

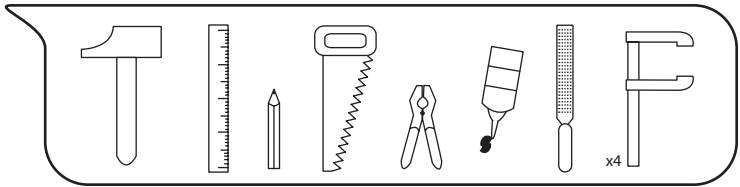

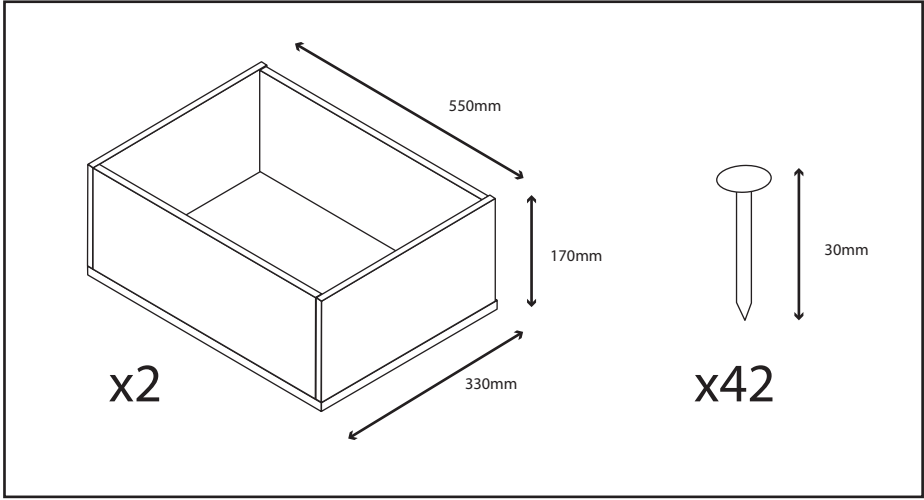

ONE BOXE TWO SEAT

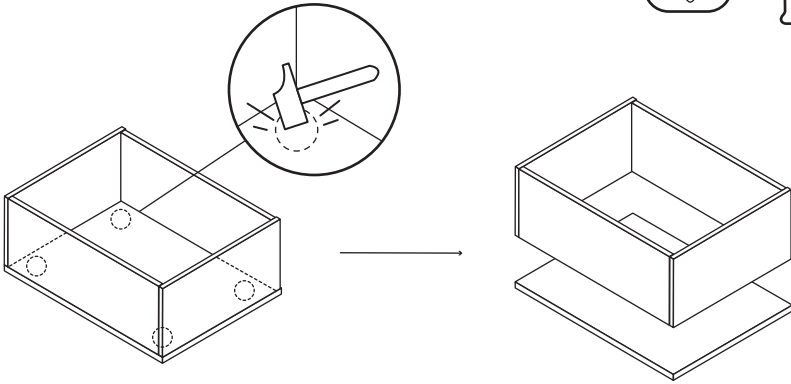

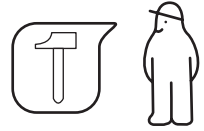

En partenariat avec les caisses de vin Marie-Louise nous devons créer un dispositif qui a pour but la revalorisation de la caisse de vin.

Notre idée à été de partir de caisse de vin pour créer une assise. Nous voulions valoriser l'enjeu d'éco-conception derrière ce projet en ne créant aucune chute de bois. Ce qui nous à amené à valoriser l'usage à la forme du dispositif.

Nous avons fini par créer, à partir de deux caisses de vin, deux assises d'appoints pour jardin, terrasse, balcon... transportable, facile à fabriquer et solide, qui s'adaptent à chaque usager.
